

## PROCESS

### ASSESSMENT

We schedule an assessment to determine if this service is applicable for your shower. We will assess the condition of the tile and shower. Then provide you with a recommendation on if additional work is required

### PHASE 1: REMOVAL

We will schedule our shower installers to remove the existing shower panel(s) and channel. The glass will be left onsite until reinstalled at a later date. During the time between Phase 2 and 3, it is the customer's responsibility to clean the tile and have any repairs to the tile or grout made before Phase 3.

### PHASE 2: REINSTALL

We will schedule our shower installers to reinstall the panel(s). During this visit, they will install a new piece of channel to hold the door panel. They will install new seals along the edges of the door and panel(s). They will reinstall the panel into the channel and recaulk it. A new door sweep will be installed.

# Shower Revitalization

Our shower revitalization service is for customers who have an existing Euro/Frameless shower that want to update the look of their shower with fresh caulk and seals.

## WHAT'S INCLUDED

- ✓ New caulk
- ✓ New Bulb/Seals
- ✓ New Sweep
- ✓ New channel
- ✓ New Squeegee
- ✓ Re-tighten handles/hardware as needed
- ✓ Adjust Shower Door as needed

## EXCLUSIONS

- ✓ Cleaning of tile. The tile must be cleaned prior to installation for a good caulk seal.
- ✓ Repair of tile or grout
- ✓ Replacing scratched or damaged hardware or glass
- ✓ Repair of the shower pan, curb or other surfaces and structures.

## DISCLAIMERS

Wolverine Glass is not responsible or liable for any scratches or damage to the tile or glass in the shower.

Customer will need to provide a place for the glass panel(s) between when it is removed and when it is reinstalled. Wolverine Glass is not responsible for damage that occurs during the time the glass is stored.

## FAQ

1. Will you perform this service on a shower that someone else installed?

Maybe. This will be determined during the assessment. Wolverine Glass reserves the right to refuse to perform this service.

2. Can you do this on a framed or semi frameless shower door?

No, this service is only for Euro or Frameless shower doors.

3. Where will you go to do this service?

This service is available to customers within our normal service area which includes the greater Ann Arbor/ Washtenaw County area which is generally within a 45 min drive of our showroom.

I have read and understand the conditions of this service.
